Number Bonds to 20

By the end of Year 2, children should be able to recall all 1 digit add 1 digit facts (for example, 9 + 4 = 13). Our aim is for children to be able to recall these facts as quickly as they can tell you their name. They will then be able to test for their ADDER Badge. Children should also be able to recall their 2, 5 and 10 times table.
