

Mr Nobody

We will be learning about evolution and adaptation in class, so for this term's Home Learning challenge you can select one task from the following to support this.

Find out about the famous Scientist Charles Darwin and present your findings in a method of your choice.

- PowerPoint
- Poster
- Biography
- Booklet

Research and present information on a bird that interests you. This could be a robin, an eagle, an owl or even a duck. You could find out about:

- Where it lives
- Its habitat
- Food chains that it is part of
- How it is adapted to its environment

Please ask if you are unsure what to produce, or if you need help with resources. Plan your work, manage your time effectively and remember to meet the deadline set. **This task needs to be completed by Monday 14th October.**
