YEAR 2 UPDATE

Dear Parents and Carers,

What an exciting start Year 2 have had to the year. The children have settled in to their new classrooms amazingly and are demonstrating positive work ethics, behaviour and presentation.

Over the past four weeks, Year 2 have been busy helping the Troll solve a range of challenging problems. To be successful, they first became scientists investigating properties of materials. As designers, Year 2 used their knowledge of material properties to design a strong, good looking, water-proof bridge. (The Troll was very happy about this, as he isn't getting wet now.) Last week, Year 2 received their most challenging problem yet! To design a strong, good looking, waterproof boat. The children took the challenge in their stride, drawing on all of their knowledge and expertise over this project. They used their creative problem solving skills to design, construct, test and evaluate their boats. The Troll is going to have a hard time picking which boat he likes the most as they were all superb!

I am sure the Troll is as proud of Year twos hard work as we are.
