

Name: _____

The Extraordinary Garden

Hello, Year One,

I can't wait to see how you change your garden at school! Perhaps you could visit a garden centre to get some ideas about different plants, seeds and flowers. You could create a poster that gives information about them and include photos/ pictures and facts.

Speak to you soon,

Joe.

Growing Challenge

We will send each child home with a sunflower seed. You could use a recycled container to make your own plant pot. Plant your seeds in your pot with some soil and watch them closely. Make sure you look after them!

As a gardener, you will need to:

1. Research what seeds need to grow.
2. Look after the plant daily.

Keeping a Diary

Keep a weekly picture diary of how your seeds have changed over time.

As a diary writer, you will need to:

1. Set a day when you are going to observe your plant.
2. Think about how you are going to record what you have seen. (Photographs, drawings etc.)
3. Label your weekly picture thinking about
 - What has changed?
 - What can you see?
 - How could you measure it?

All home learning will be shared in class the week beginning 20th May. We do not need your plants bringing in only your pictures or diaries and/or posters.

Remember, if you have been gardening you must wash your hands.

"Be creative with how you present your diary."
