

# Community Champions 😊

Monday 14<sup>th</sup> October - Thursday 21st November

In this project we will be learning about all the wonderful people in our community who help us in different ways. There are many community champions including; the police, doctors, nurses, firefighters, soldiers, supermarket workers... the list goes on! We will learn that not all heroes wear capes!

## Task 1

Do you have any books about people who help us? If not, then perhaps you could visit your local library and see if there are any books about community champions like doctors, the police firefighters... Why not draw a picture showing us something you found out from a book.

## Task 2

Do you know a community champion? If you do perhaps you could interview them and ask how they help people in the community. You can share what you find out on Tapestry along with any pictures with their permission of course!

## Task 3

Dress up as your favourite community champion. You can share pictures on Tapestry and perhaps you could record a video telling us how that community champion helps others. If you don't have a costume you could make some accessories out of stuff you have at home.
